Pool Safety Checklist

Fence Heights to be min of 1.2m from ground.

No gaps anywhere in or under fence to be > than 10cm

Gates need to latch in all positions. Never prop gates in an “open” position!

Keep a min of 1.2m clear on the outside of your pool fence.

Keep a min of 300mm clear on the inside of your pool fence.

Check that gates do not stick to the ground/grass/ rocks when opened.

Gate latches to be a min of 1.5m from the ground.

Pool Safety Checklist

Remove all pots, BBQ and ornaments next to the pool fences.

Remove all vines from pool fences.

Check for taps, power points on the outside of your pool fence.

Make sure all windows in your pool area have screens

Make sure you have no doors opening into your pool area.

Check that your gates open outward - away from the water.

Check all screws and panels are secure.
